

# Enabling Open Science

Our Vision for Partnership and Action

**WILEY**

4 April 2016

Philip Carpenter

# Publishers have the WILL and the WAY to enable Open Science

- We have the scale and relationships to support and drive author/community behaviour.
- We are investing in technology to make open as easy as possible for all stakeholders.
- We are in the business of providing reliable information.

# We will continue to ACT and ENGAGE
